

Y-12 INDORSING NEW HOSPITAL PLAN

New Traffic Pattern Is Set To Ease Driving From Y-12

Drivers Urged To Scan Map, Description Of Flow Planned During Afternoon Rush Hour

A new traffic pattern for Y-12ers leaving the plant area from 4:30 p. m. to 5 p. m. has been drawn for Bear Creek Road, the thoroughfare leading from the East Portal to Scarboro Road and also through the Midway Gate from the Atomic Energy Commission Controlled Area to Oak Ridge. It is believed that the new plan will greatly ease confusing traffic conditions now existing. The new plan will be placed into operation at 4:30 o'clock next Monday afternoon, October 13.

Success of the new traffic pattern depends greatly on the cooperation given by Y-12 motorists and members of their families who drive automobiles in the controlled area to carry employees from work to their homes. A close study of the map and directions at the bottom of this page is urged of every Y-12er so that when the plan is placed in operation next Monday the new pattern can be carried out with a minimum of confusion.

Traffic Pattern Studied For Many Months

The new pattern was worked out after many months of study by traffic analysts of both Y-12 and the Atomic Energy Patrol, the AEC Safety Division and Oak Ridge traffic authorities. Of course, some "bugs" may appear in the plan that will require minor changes later.

The new traffic control plan is based on the theory of assigning specific lanes for specific traffic. AEC patrolmen and Y-12 guards will be placed at strategic points to aid in controlling traffic. Signs and barricades also will be used to guide automobiles into the proper lanes.

Starting at the Y-12 West Portal—here's how the plan works. Traffic from that point will move into the two right hand traffic lanes on Bear Creek Road until reaching a point west of the North Portal, the point being marked by a sign. A barricade there will direct vehicles into the second and third eastbound traffic lanes, leaving the north lane only open for westbound traffic. This leaves the inside, or south lane of the road, open for traffic from the North Portal.

The North Portal traffic will begin feeding into Bear Creek Road at the intersection of that highway and the road leading from the North Portal vehicular gate and the gravel parking lot, as shown on the map. An AEC patrolman will be stationed at that point to temporarily halt eastbound traffic for whatever left turn, or westbound traffic, that leaves the North Portal area and also to allow incoming traffic to Y-12 to enter the plant area.

North Portal Traffic Leaves By Biology Road

The great majority of the North Portal traffic, including busses, will leave that area by the road leading into Bear Creek Road at the Biology Division Portal, as shown by arrows on the map. A barricade on the south lane of Bear Creek Road will leave that lane open for eastbound traffic from the Biology Portal section.

The plan then calls for the merging of all eastbound traffic in the two right traffic lanes of Bear Creek Road. Signs and barricades also will mark the correct routings along this section of the highway.

Automobiles bound for Knoxville or other points using the Kerr Hollow Gate from the AEC Controlled Area will have the option of turning right at the entrance road to the Y-12 East Portal from Bear Creek Road, or continuing along Bear Creek Road to Scarboro Road and then turning right.

Traffic from the East Portal for Oak Ridge or Knoxville, pre-

Alert Y-12ers Working To Bar All Fire Hazards

Meetings, Inspections Mark Prevention Week To Keep Record High

(Pictures On Page Four)

Intent on preserving their excellent record of fire prevention both at the plant and at home, alert Y-12ers this week are concentrating on paying particular attention to potential fire hazards during observance of Fire Prevention Week. Extraordinary efforts are being made throughout the plant area to track down and eliminate any potential fire hazards and divisional and departmental safety meetings are stressing details on just how this can be done and also what steps to take if a fire does happen to break out.

At these meetings Y-12ers will be instructed how to prevent fires, what to do in case of fire, location of and how to use fire extinguishers, how to turn in fire alarms and given other information on combatting one of the world's worst threat to life and property.

Inspections Are Made

Fire, Safety and Security Committee members have made preliminary inspections of their divisional areas and submitted reports to divisional and departmental committees for action. Departmental inspections are being made during the week with the

PROMOTIONS STORY IS CROWDED OUT

Because of space limitations this week, the usual sketches and pictures of Y-12ers who have earned promotions since July 1, 1951, will not be published this week. The series will be resumed next week.

Y-12 Chest Committee Plans For Campaign

Essay Contest Planned For Ridge Children

(Picture On Page Two)

The Y-12 Community Chest campaign committee, headed by Industrial Relations Supt. George W. Flack, was organized last week and laid preliminary plans for the fund raising drive in the plant, beginning Monday, October 20. The plant committee is composed of representatives of divisions and employees throughout the plant.

Chairman Flack pointed out that the Chest goal of \$55,889 for the coming year represents the minimum needs of the 15 appeals wound up in one campaign. The budgets of the individual Red Feather agencies of the Chest in Oak Ridge have been trimmed to the bone and reviewed by the Chest board of directors. The money asked by the Chest will pay for services needed by Oak Ridge and which can be supported only by voluntary contributions.

Y-12 Record Excellent

During the first week of the campaign Y-12ers will be asked to continue their superlative record

Continued on Page 4

Friday Deadline For Signing; All Will Get Chance

Deductible Clause And Added Cost Marks New Insurance Arrangement

With Friday of this week, October 10, set as the deadline for turning in cards accepting or rejecting the revised Hospitalization and Surgical Plan for all Carbide employees, Y-12ers last week were indorsing the new insurance plan by an overwhelming majority. With approximately 3,000 cards returned by last Friday, 96.5 per cent of the Y-12 employees contacted had accepted the revised provisions of the plan.

Although Friday has been designated as the last day to return the cards, every Carbide employee will be given an opportunity to accept or reject the plan.

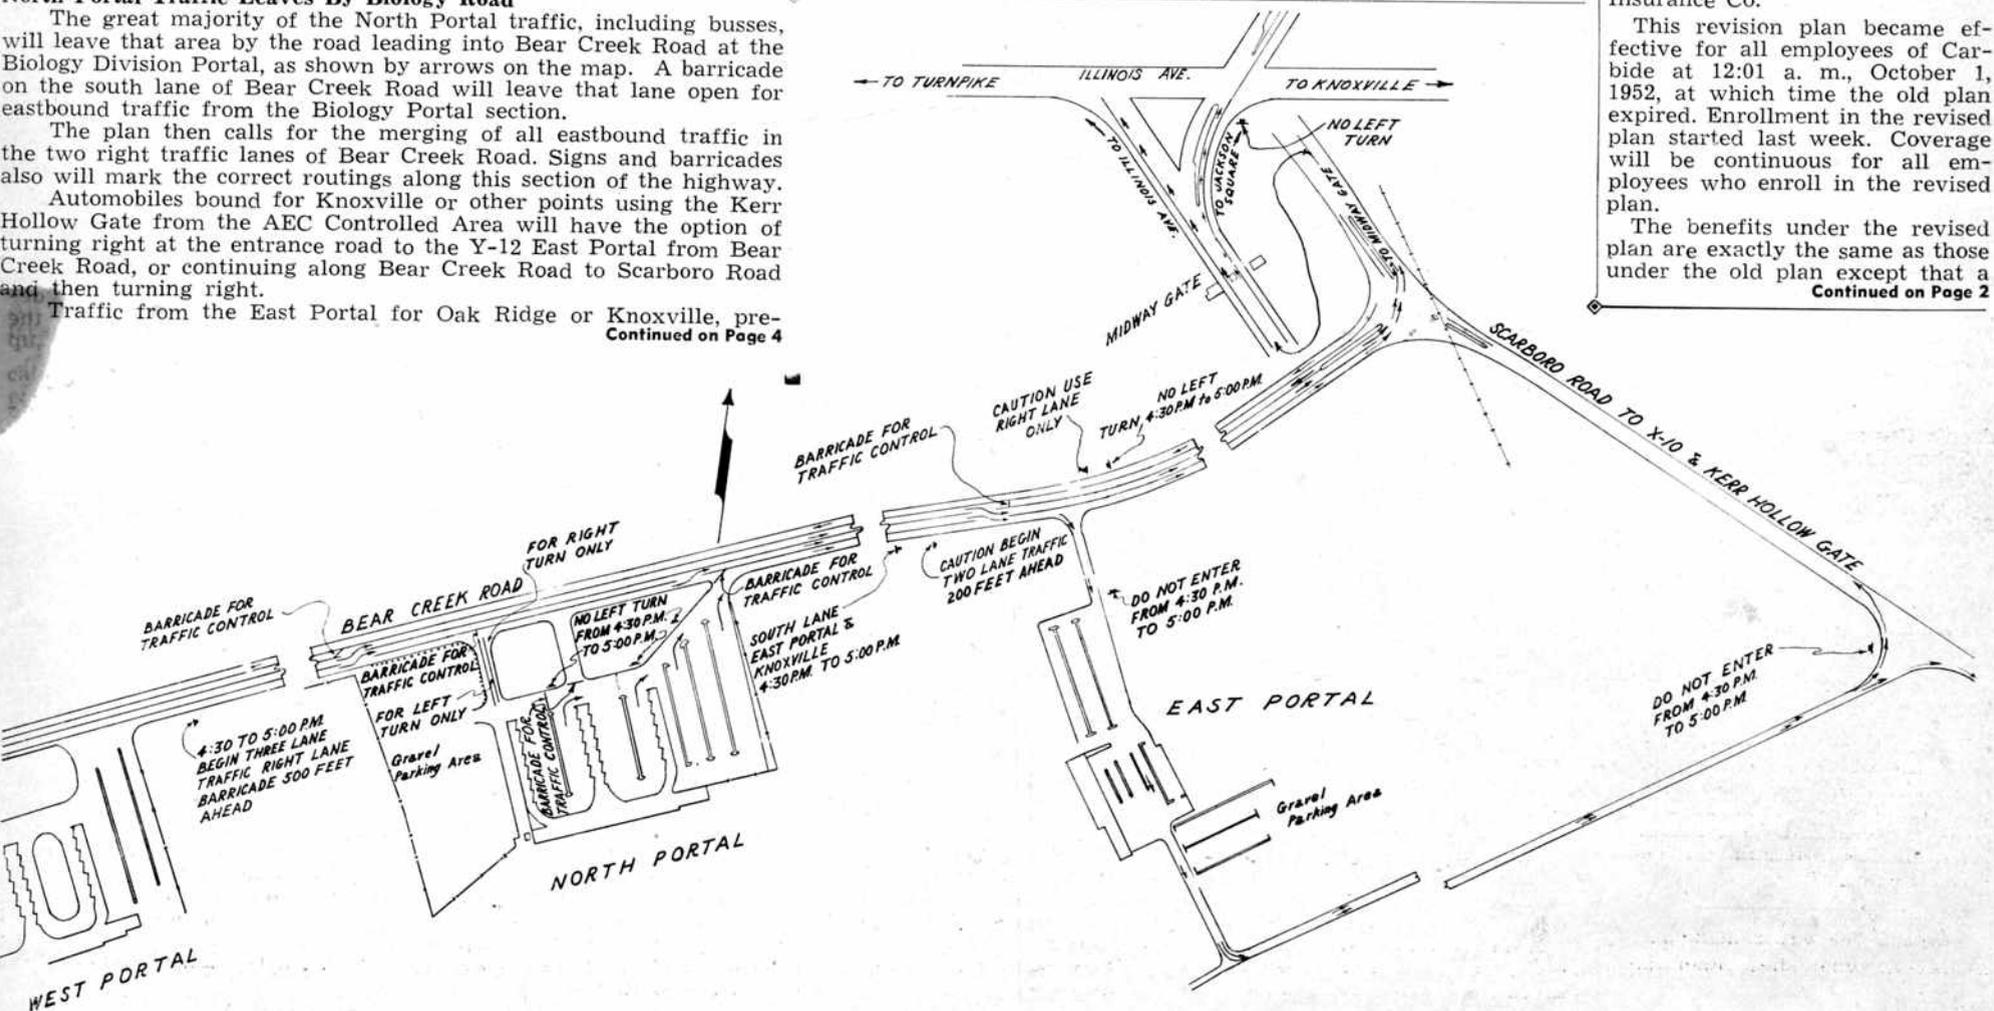

Benefits Exceeded Payments

The Hospitalization and Surgical Plan revision was found necessary when it was revealed that benefits during the past year to Carbide employees in all three of the Company plants in Oak Ridge far exceeded the combined payments paid by both Carbide and the employees under the old plan with the Connecticut General Life Insurance Co. As a result, the Company studied various plans which were submitted by several insurance companies before accepting the revised plan submitted by the Connecticut General Life Insurance Co.

This revision plan became effective for all employees of Carbide at 12:01 a. m., October 1, 1952, at which time the old plan expired. Enrollment in the revised plan started last week. Coverage will be continuous for all employees who enroll in the revised plan.

The benefits under the revised plan are exactly the same as those under the old plan except that a

Y-12 Chest Committee Plans For Campaign

Continued from Page 1
of past years in being the "fustest with the mostest" in answering the appeal of the Chest Red Feather Agencies in Oak Ridge. For the past four years Y-12 has led all groups in its classification in reporting "over the top" with its quota and the record is expected to be upheld this year.

In addition to Clairman Flack, the plant committee is composed of Carl Roddy, Engineering; W. S. Herron, Chemical; R. L. Boyd, Guard Department; John Rohland and W. C. Davis, Manufacturing Office; Nelson Tibbatts, Maintenance; Kathryn Ballentine, Technical Information Department; Paschal Hamrick, Industrial Relations, and F. M. Henry, Atomic Trades and Labor Council. A representative from the ADP Department had not been selected last week.

Essay Contest Arranged

An added stimulant for success of the campaign has been arranged in the form of an essay contest for Oak Ridge youngsters. The contestants are divided into two age groups—13 to 15 years inclusive, and 16 to 18 years. Prizes of \$15 and \$10 will be awarded the top two entries in each group and all Y-12 parents are urged to have their children in the age groups to participate.

The topic of the essay is "What The Community Chest Means To Me." It must be limited to 300 words, written on one side of a sheet of paper, typed if possible. On the upper left of the page the name of the contestant, name of parent and where employed shall be placed. The contest will be judged on originality of presentation and neatness.

The essays should be mailed to the Contest Office, Community Chest, Oak Ridge, City Administration Building. The deadline for entering is midnight of Friday, October 24, with postmarks being the deciding factor.

Budget Figures Announced

The Chest agencies and the amounts asked for their support follow:

- Oak Ridge Dental Health Council, \$5,520.
- Off-Area Hospitalization Fund, \$500.
- Boy Scouts, \$10,400.
- Girl Scouts, \$10,512.
- Campfire Girls, \$2,400.
- Anderson County Crippled Children's Committee, \$2,500.
- School Lunch Program, \$7,500.
- School Bus Fare, \$700.
- Oak Ridge Nursery Schools, \$2,160.
- Anderson County Council on Cerebral Palsy, \$7,000.
- East Tennessee Heart Association, \$1,000.
- Scarboro Day Care Center, \$2,681.

National agencies benefiting by Community Chest contributions are the American Hearing Society, \$34; Mental Health, \$166; National Travellers Aid Society, \$48; and the Community Chest Council of America, \$168. Approximately \$2,600 is designated for administration of the Community Chest in Oak Ridge.

Whisper—The way to make people believe what they otherwise wouldn't.

Accommodating Y-12er with two radios offered a lot of hospitality to friends last Saturday.

With appropriate directional arrows he placed one set in the kitchen and the other in the living room with the signs saying—

"Beizbol, dezaway. Footsbawl, dataway. You pays your money and you takes your choice."

C. B. Hillard, of the Guard Department, and his family are vacationing in Florida this week . . . The department extends congratulations to Lt. D. B. Williams, who is the proud papa of an eleven-pound, eight-ounce baby boy born September 25 at the Oak Ridge Hospital . . . Congratulations also go to Howard F. Jordan, who is the proud father of a baby girl, born September 19 at the Oak Ridge Hospital.

H. L. Spurgeon, of Transportation, lucky fellow, is spending his two-week vacation in New York, to witness the World Series.

Virginia Slusher, of Medical, and her husband, Bob, of Engineering, spent last week's vacation at home in Oak Ridge . . . Peggy Greene is enjoying a leisurely week of vacation at her home in Concord . . . Jim Chambers is vacationing for a week at home in Byington . . . Maude Clemmer has returned from a week's vacation.

Eunice Bogle, of Analytical Chemistry, spent last week's vacation visiting relatives in the Carolinas . . . Edna Bonifacius is enjoying two weeks of vacation at home in Oak Ridge . . . Helen Clark visited relatives in nearby cities and loafed around home in Oak Ridge while on a week of vacation . . . Apologies to Linda Slusher Berry and to her new husband Robert Berry—somehow or other our reporter thought the groom's name was Casey.

F. W. Watson, of Planning and Estimating, and his family are vacationing down in Florida this week . . . W. T. McNamara and his wife, Millie, and their son, Fred, of Maintenance Shops, and his wife are visiting cities in Michigan, New York, and Massachusetts while on a week of vacation . . . Ab Monger is spending his week off resting up at home in Knoxville.

The Health Physics Department extends get-well wishes for Gladys Dodson, who was ill at her home in Oak Ridge, last week . . . Also get-well wishes for E. F. Rutherford, who was off ill last week at home in Norris . . . The department welcomes R. D. Partten, a transfer from the Guard Department, to the roster.

Ann Kennedy, of the Laundry, and her husband, Frank, of Electrical Maintenance, are vacationing this week in Atlanta, Ga. . . . Lillie Rogers is spending her week off at home in Oak Ridge . . . The

department extends get-well wishes for Ann Wagner, who was ill and in Fort Sanders Hospital in Knoxville last week . . . Also get-well wishes go to Pauline White, who was on last week's sick list . . . Catherine Brown has returned from a week of vacation.

Dorothy Conner, of Technical Information, and her husband, LeRoy, attended the Carson-Newman-Emory and Henry football game in Bristol, Saturday, September 27 . . . Betty Stephens spent a recent week of vacation visiting her sister, Mrs. T. L. Rich, in Chattanooga . . . Bobbye Jesse visited her husband, Don, over at Fort Jackson, S. C., over a recent week end . . . Apologies to Terry Ann Keener, new member in the department, for last week's mistaken identity.

Kenneth D. Cook, of Engineering, and his wife are on a two-week vacation down Florida way . . . The department welcomes J. P. Lawless back to work after a lengthy illness . . . Get-well wishes are extended to B. D. North, who has been in the Oak Ridge Hospital with a case of pneumonia.

Margaret Johnson, of Stores, has returned from a week of vacation . . . S. A. Copeland is spending his two weeks with pay loafing around home over on Edgemoor Road.

The Tool Department extends hearty congratulations to John Johnson, who is the proud papa of a baby boy born September 26 in a Harriman hospital—little Michael Robert weighed seven pounds at birth.

Property Sales is sorry to lose J. B. Moneymaker, who left Monday prior to induction into the Army.

The Personnel Department extends get-well wishes to Marguerite Collins, who is ill and was a patient in the Baptist Hospital in Knoxville last week . . . Louise Gardipee spent last week's vacation taking life easy at her home in Concord.

Congratulations to W. Hamby, our dear, dear Paymaster, who is the proud pappy of a baby boy—little Richard Allen was born October 1, at St. Mary's Hospital in Knoxville—Papa Hamby is vacationing at home in Clinton this week to try his hand at baby-sitting . . . W. E. Gallaher is spending his vacation week fishing and at home in Knoxville . . . Richard Humphrey is also vacationing at home in Knoxville.

Hazel Lane, of the Superintendent's Department, and her husband, Donald, spent last week visiting relatives in Chicago, Ill. . . . Nelson Bethea is attending a Methods Time Measurements Conference at the Commodore Hotel in New York today and tomorrow.

Fred Hurst, of Materials Chemistry, and his wife are vacation-

Testing Society Sets Meeting For Tonight

The Oak Ridge Section of the Society for Non-Destructive Testing will open its autumn season with a meeting at 8 o'clock tonight, Wednesday, October 8, in Room 20, Oak Ridge Institute of Nuclear Studies Building. Frank Binford, of Oak Ridge National Laboratory, will speak on the availability of types of radioactive isotopes used in industrial radiography. Also on the program will be a moving picture "Engineering For Isotopes," dealing with the packaging and shipping of radioactive isotopes by ORNL.

The SNT section was formed in Oak Ridge in January of this year. President of the group is V. C. Jackson, of the Y-12 Analytical Laboratory. Other officers include R. E. Schabot, of the Y-12 Research Engineering Department, secretary; and J. K. White, Analytical Laboratory, treasurer. H. D. White, also of the Analytical Laboratory, is a member of the board of directors and several other Y-12ers are members of the section.

The following Y-12 employees were patients in the Oak Ridge Hospital last week: Byron D. North, Engineering; Ray W. Pesson, Uranium Processing; Robert Rowan, Jr., and Constance B. Varlan, Chemical Analyses; Edward Hensley, Field Maintenance; Robert Lee Robinson, Biology; LeRoy Yeatta, Jr., Materials Chemistry; Robert F. Adams, Maintenance Shops; Anne Ruth Williams, ANP; Joe L. Williams, Chemical; Sells E. Adams, Electrical Maintenance; George S. Chilton, ANP.

ing at Fred's home in Jackson, Miss., this week . . . K. B. Brown and Larry Phillips were on last week's vacation list . . . Roe Meadows sold all his beef cattle while on a recent week of vacation—and has now retired as a cattle rancher . . . We understand that Julian Didlake wants to get rid of his old auto and is interested in getting a better one, say a Chevrolet? . . . A whole group from the division, and their wives, took advantage of their last free Saturday, September 27, and went on an outing down to Tellico Plains—they toured the Cherokee National Forest and had a swell time at their picnic lunch on top of Bald River Falls . . . Folks are wondering how Hank Buttram made out on that Georgia Tech football wager . . . The thing that is on Frank Kertesz's mind these days is the building of a house boat—wonder if it will be just a dream boat?

C. V. Ketrion, of Isotope Research and Production, attended the recent Holston Methodist Conference in Knoxville . . . W. A. Bell and his family are visiting in Mississippi while on a week's vacation . . . Henry Morgan is staying pretty close to home in Oak Ridge while on two weeks of vacation . . . Boodie Garrett and her husband, Benson, of Chemical, attended the Carson Newman-Emory and Henry football game in Bristol, Va., on a recent Saturday. . . . Harold Greene and his family are visiting his parents in Jackson Center, Ohio, and they are also visiting E. B. Scofield, a former Y-12er, in Columbus, Ohio, this week.

PROTECTIVE GOWN RESIGNED

According to the United Press, doctors of the University of Virginia Hospital report in the American Medical Association Journal that a gown made of lead glass fabric has been designed to protect scientists and laboratory workers from radiation.

Y-12ers Accepting New Hospital Insurance

Continued from Page 1
deductible feature has been added for certain types of confinement to make the plan more workable for the employee, the Company and the insurance company.

How Deductible Plan Works

Under the deductible feature the plan will work as follows:

1. The insurance company will continue to pay the same benefits of bed, board, services and supplies under the revised plan as under the old plan for all confinements as a result of accidental injury, surgical operations and maternity. In other cases, the employee will be required to pay the hospital the first \$20 of the claim. In such cases the insurance company will pay only the balance of the claim. The maximum benefits under the revised plan are the same as under the old plan.

2. The insurance company will continue to pay the full benefits of the cost of visits of doctors in the hospital under the revised plan as under the old plan for all confinements as a result of accidental injury and surgical operations. In other cases the employee will be required to pay the doctor for the cost of the first four visits, at a rate of no more than one per day, made in the hospital by the doctor. In such cases the insurance company will pay only the balance of the claim. The maximum benefits under the revised plan are the same as under the old plan.

Because the insurance company has paid out more in claims than it has received in premiums during the past year, it has been necessary to increase the cost of this insurance under the new plan. The cost to each employee and to Carbide on behalf of each employee has been increased to \$1.03 per month for coverage of an employee without dependents. This is an increase of 14 cents per month. For employees with dependents, the new cost will be \$3.74 per month, an increase of 54 cents.

Y-12ers covered by the old plan noticed that in their last pay checks that the usual deduction for the Hospitalization and Surgical Plan was omitted in September for October premiums. This deduction will be adjusted for the next premium period to catch up on the payments.

Dependents Clearly Defined

The question most asked the Y-12 Insurance Office during the enrollment for the new plan was on "what is a dependent." Under provisions of the insurance plan a dependent is a spouse (husband or wife) not employed by any of the Carbide plants in Oak Ridge, and unmarried children between the ages of 14 days and 19 years. No other persons in a family are covered. It also is pointed out that when a man and wife both are employed by Carbide in Oak Ridge only one may apply for full family coverage, the other for coverage without dependents.

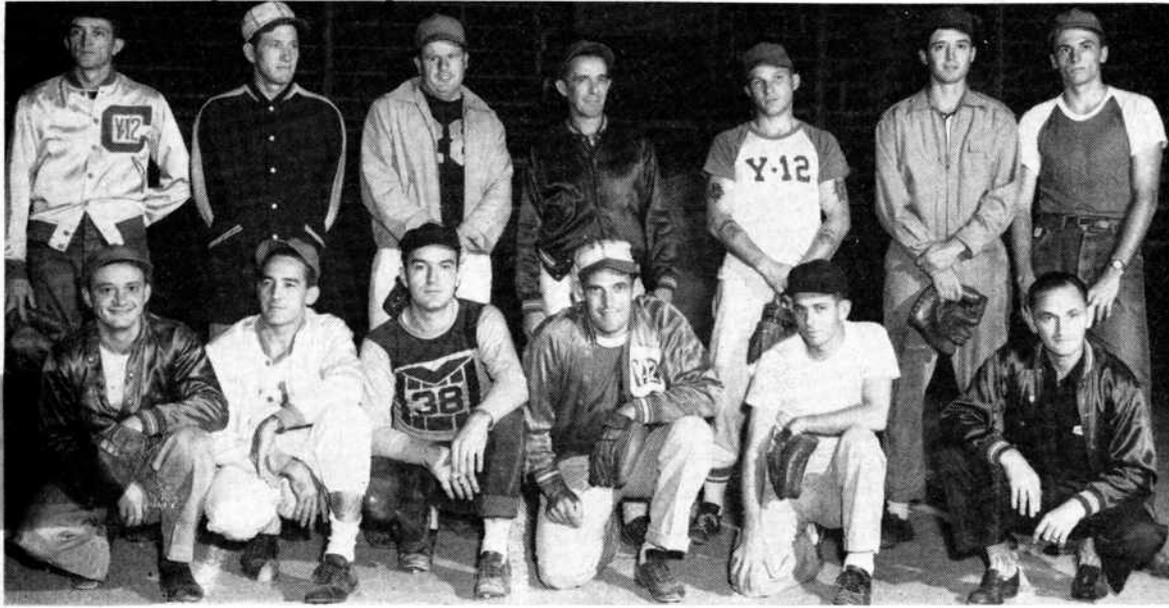

With the advent of this deductible type of Hospitalization and Surgical Plan, both Carbide and the insurance company believe it will be adequate for the needs of the employees without any loss to the insurance company.

Think safely—work safely—live safe.

MEMBERS OF THE Y-12 PLANT COMMUNITY CHEST Committee are shown above. Front row, from left, are Nelson Tibbatts, Maintenance; Kathryn Ballentine, Technical Information; Paschal Hamrick, Industrial Relations; and W. C. Davis, Manufacturing Offices. In the rear are Carl Roddy, Engineering; George W. Flack, Industrial Relations Superintendent and Committee Chairman; W. S. Herron, Chemical; R. L. Byrd, Guard Department; and John Rohland, Manufacturing Offices. F. M. Henry, representing the Atomic Trades and Labor Council, AFL, was unable to be present when picture was made.

Y-12 TEAM WINS FOURTH CITY SOFTBALL CROWN

Y-12'S LATEST OAK RIDGE SOFTBALL CHAMPIONS ARE THE WOODPECKERS, PICTURED ABOVE. In front row, from left, are Jim Baker, Bill Stanton, Clyde Smith, Emmett Moore, Lester Sikes and Manager Avery Kendig. In the rear are George McPherson, Luther Walton, Ross Jones, Ed Sise, Paul Braden, Bill Hamil and John Agee.

Woodpeckers Wallop Elks For Class B League Title

Fine Hurling By Ed Sise And Clutch Hitting Brings 5 To 4 Victory In Championship Tilt

Another Oak Ridge softball championship—the fourth this season—was batted right into the plant Recreation Office trophy case last week when the Y-12 Woodpeckers trimmed the Elks by the score of 5 to 4 to bring home the crown of the Class B Recreation League for the 1952 season. The wrapping-up contest was the second straight win by the Woodpeckers in the playoff series for the championship, the Y-12ers having licked the antlered herd earlier by 11 to 2 in the opener.

Previously the Y-12 Red Birds had won the city Class A championship and the Robins the women's title. The Bldg. 9212 team of the plant Carbide league took first place in the city Class B tournament.

The Woodpeckers had to battle all the way through the season to earn their title. They tied the Elks and First Baptists for the first half of the season championship and the Elks took the second half honors. Then the Y-12ers licked both of their rivals to enter the final playoff.

Sise, Clutch Hitting Difference

The final game that—it is hoped—officially closed out the Oak Ridge softball season, was a hummer. In the final analysis it was the pitching of Ed Sise, one of the area's most dependable and capable hurlers night in and night out, and clutch hitting by his mates, that snatched the bacon for the Woodpeckers.

In the championship contest Bill Hamil and Bill Stanton got two safeties each out of the team's six. Stanton drove in four or the five runs with a double in the first that scored Wright and Moore and a single in the fifth that sent Moore and Hamil scampering across with the winning runs. Hamil got a homer in the third and a single in the fifth.

Y-12ers Take Early Lead

The Woodpeckers forged out in front in the opening round with a pair of tallies while the Elks got one counter. After Hamil's homer the Elks got a pair in the third to knot the score, a triple by Chesney being the big blow. The fourth was scoreless but the Woodpeckers took the lead again in the fifth and allowed the Elks but one more tally—and that was the season.

In that fifth round for Y-12, Barker walked and was forced by Moore. Moore swiped second and took third on Hamil's single through the box. Hamil also stole second and the two runners scored on Stanton's previously mentioned blow, a bouncer over third base.

Score by innings:
 Team Woodpeckers 201 020 0— 5 6 1
 Elks 102 001 0— 4 5 1
 Sise and Barker. Lay and Keith.

Activators Return To D League Roost

The Activators returned to first place in the D League last week by romping on the Old Men for a four point victory while the Vectors, previously tied for the top, took a three point pounding by the Peons. The Toppers also got a whitewash win over the Isotopes and the Grocers grabbed a tie for second place by whipping the Split Kids for three points.

Ross, of the Activators, posted a 220 scratch and 254 handicap game for top scores as did McGoige, of the Toppers, with a 600 scratch series, boosted to 702 with handicap. The Toppers had the best team scores all across the board with 842, 1033, 2459 and 3032.

League standing follows:

Team	W	L
Activators	14	2
Vectors	11	5
Grocers	11	5
Toppers	10	6
Peons	7	9
Split Kids	5	11
Old Men	3	13
Isotopes	3	13

Tigers Claw Wolves For B League Lead

The Rippers did everything but win last week in the B League bowling bouts with high scoring, but dropped three points to the Rebels. Len Hart posted seasonal high scores of 679 scratch series, boosted to 711 with handicap and also a 230 scratch game while the Rippers as a team had the top scratch game score of 868 and 2470 scratch series. While all this was going on the Tigers clawed their way to undisputed possession of first place in the circuit with a shutout win over the Wolves, the Wasps put the stinger on the Swingsters by the same margin and the All Stars, Bums and Cubs whipped the Bumpers, Has Beens and Bldg. 9211 by three points.

Brisco, of the All Stars, had a 259 handicap game to break Hart's sweep of scoring honors. The Wasps had an even 1000 handicap game and the Rebels a 2903 handicap series for tops of the night.

League standing follows:

Team	W	L
Tigers	15	5
Rebels	14	6
Wasps	13	7
Bumpers	12	8
Bums	11	9
Wolves	10	10
Has Beens	10	10
All Stars	9	11
Rippers	8	12
Bldg. 9211	7	13
Cubs	7	13
Swingsters	4	16

Keglerettes Of Y-12 Get Shutout Victory On Alleys

The Y-12 varsity keglerettes did a complete turnabout last week and atoned for a previous shutout defeat by plastering the Bailey Motors lassies with a whitewash trimming in an Oak Ridge City League engagement. The victory gave the Y-12ers a 12 and four mark for the season. In winning, the Y-12 women had the top series score of the season with 2197 and the best single game of 765. The line scores were 694, 765, 738—2197 for the winners and 623, 745, 677—2045 for Bailey.

Juanita Kirwan rolled a fine 516 series for Y-12, the best of the season in the loop, by putting together games of 166, 193 and 157. Then came Mary Ballard with 135, 138, 166—439; Betty Whitehorn 136, 144, 155—435; Ruby O'Kain 116, 158, 140—414; and Mavis Koons 141, 132, 120—393.

Squadron Still Accepting Pupils In Piloting Class

Registrations still are being accepted by the Oak Ridge Power Squadron for the piloting and small boat handling classes being conducted for all nautical enthusiasts, it was announced last week by G. J. Angele, of the Y-12 Engineering Division, who is commander of the squadron. The class meets at 7:30 o'clock every Wednesday night in Room A-129, Oak Ridge High School. At the meeting scheduled for tonight, Wednesday, October 8, Angele will address the class on Seamanship.

Y-12 SPORTS NEWS

Second Fishing Rodeo For Y-12 Anglers Will Be Held October 19-November 2

The second Y-12 Fishing Rodeo for plant anglers and members of their families will be held from October 19 through November 2, it was announced last week by the Recreation Office. The first such event, held last spring, proved popular with fishermen of the plant with nearly 200 tickets sold and a lot of fine merchandising prizes awarded winners.

Rules for the rodeo are simple. Any Y-12ers or a member of his or her immediate family (wife, husband or child) may enter the event by purchasing a ticket for 50 cents. Then the fisher folk visit their favorite spots in Tennessee waters open to the public, cast forth their bait or lure—and hope for the best possible cooperation on the part of the finny tribe. The rodeo tickets may be purchased at the following places:

- Y-12 Recreation Office, North Portal.
- A. F. Kendig, Bldg. 9201-3.
- R. S. Phillippi, Bldg. 9212.
- Nelson Tibbatts, Bldg. 9739.

Specie of fish eligible for entry into the rodeo are largemouth, smallmouth and striped bass, wall-eye and sauger pike, crappie, bream and trout. The fish must be taken on a rod or cane pole and line.

First, second and third prizes will be given in each class with weight determining the winners. In case of ties length and girth, in that order, will be considered. All money received from entry fees will be used to buy prizes.

To make the entry official the catch must be certified by an operator of a fishing dock or the Sutton's Sporting Goods Store or the Sportsmen's Service Supply Store, Oak Ridge. Entry cards may be left at either of the stores or the Y-12 Recreation Office—and must be turned in not later than noon on Monday, November 3.

Complete rules for the rodeo are printed on each entry card—so get 'em early, both the cards and the fish.

Nuclear Studies Group Sets Meeting Next Week

The Oak Ridge Professional Group on Nuclear Studies will hear a talk on "Low Current Technique" at a meeting set for 8:00 o'clock next Thursday night, October 16. The meeting will be held at the Ridge Recreation Hall and the speaker will be F. M. Glass. A discussion of the electrometer will follow the address.

Rusty Five Romps To Increase Lead

The Rusty Five bowlers in the C League beat off the threat of the Hooks to hold the league lead last week by taking three points from their second place foes. The Eutectics scored the only whitewash win of the night by trimming the Guards and the Hornets took three from the Uranium Control Junior Varsity keglers. The Moles and Angstroms broke even to create a three way tie for the cellar position.

Paddy Peckman, of the Rusty Five, had the top series scores of the night, a 521 scratch and 626 handicap effort. DeFelice, of the Eutectics and Shearer, of the Hornets, tied with 180 scratch in single game scores and DeFelice had a 227 handicap score for tops. The Rusty Five had the best team scratch game of 793, the top scratch series of 2164, boosted to 2758 with handicap. The Hornets had the leading handicap game score of 1006.

League standing follows:

Team	W	L
Rusty Five	15	1
Hooks	11	5
Hornets	9	7
Eutectics	9	7
UCJV	8	8
Guards	4	12
Moles	4	12
Angstroms	4	12

Controllers Score Another Whitewash

Those uncontrollable Controllers struck out the Striketettes for three games in the W League last week to maintain their three game lead in the standings over the Kemps, which also won three games from the Cracker Jax. The Curvettes blasted the Gutter Cats by the same margin and the Mix Ups took a pair from the Alley Cats, the latter team winning its first game of the season in the fray.

The Controllers dominated individual scoring honors, Betty Whitehorn posting a 481 scratch series, best of the year to date, boosted to 589 with handicap, and Juanita Kirwan rolling a 175 scratch game. Lonnie Holzknicht, of the Kemps, got into the act with a 225 handicap series, tops of the night and season. The Controllers had the best team scratch scores with a 686 game and 2010 series. The Curvettes had a 974 handicap game and the Kemps a 2739 handicap series for tops.

League standing follows:

Team	W	L
Controllers	12	0
Kemps	9	3
Cracker Jax	6	6
Gutter Cats	6	6
Mix Ups	6	6
Curvettes	5	7
Striketettes	3	9

Vitros Continue Streak In E League

Rolling consistently without any record scores, the Vitro Peglers pounded the Pin Wobblers for a whitewash victory in the E League alley activities last week to extend their win streak to 12 points without a blemish and a four point lead. The Ezy Aces spurted from the second division to second place by blanking the 66s and the Holslurps and Stinkers also advanced in the standings by taking three points from the No Pins and Cut Ups.

Becker, of the Ezy Aces, had a 231 handicap game, 520 scratch series and 646 handicap series for tops in those brackets. Harley, Cut Ups, posted a 192 scratch game. The Cut Ups had the best team scores with 749 scratch, boosted to 982 with handicap. The Stinkers' series scores were tops with 2167 and 2863.

League standing follows:

Team	W	L
Vitro Peglers	12	0
Ezy Aces	8	4
Pin Wobblers	7	5
Holslurps	7	5
Stinkers	4	8
66s	3	8
No Pins	2	10
Cut Ups	1	10

Varsity Bowlers Of Y-12 Set High Marks In Victory

The Y-12 men's varsity bowling team took another long jump ahead on Monday night, September 29, by shutting out the Friedman's keglers for four points and thereby forging to the front in the Oak Ridge City League. In gaining the victory the Y-12ers posted the best team game and series of the season to date, a 965 and 2830, while Jack Spears registered a 633 series for best of the year.

The victors had games of 940, 925, 965—2830; to 811, 912, 881—2604 for Friedman's. Individually the Y-12 scores were Jack Spears 211, 196, 226; Len Hart 181, 210, 188—579; Ernie Cobble 191, 171, 202—564; Roy Roberts 192, 186, 179—557; and Frank Gragg 165, 162, 170—497.

New Traffic Pattern Is Set To Ease Driving From Y-12

Continued from Page 1
 viously proceeding north to Bear Creek Road, must go south under the new plan, then turning left on the exit road to Scarboro Road. At the intersection of this road and Scarboro Road an AEC patrolman will be stationed to feed traffic into Scarboro Road. This exit road will be one-way during the 30-minute period the plan is in effect. No left or right turns from Scarboro Road will be allowed during this period.

The traffic on Bear Creek Road meanwhile will have converged just before reaching the East Portal Road into the two right lanes of the main road and proceed to the intersection at Scarboro Road, where traffic is controlled by a traffic light.

Traffic Divides At Midway Gate

After turning into Scarboro Road the traffic flow will be divided just before reaching the Midway Gate. Traffic to Jackson Square and points each will take the lane just to the right of the middle block house of the AEC Patrol at that point and proceed into Lafayette Drive. No left turns will be permitted at the Illinois Ave. traffic light. Vehicles bound for points west will take the lane to the left of the block house and proceed directly to Illinois Ave. An Oak Ridge police officer will assist in directing drivers in that area during the rush period.

U-T Men Will Judge Camera Club Contest

Prof. Kermit Ewing, of the University of Tennessee School of Fine Arts; and Don Potts, a graduate student at the state university in recreational crafts; will judge the entries in the color slide and photographic print contests to be held next Wednesday night by the Carbide Camera Club. The session is the club's annual salon meeting and will be held jointly with the Oak Ridge Camera Club at the Ridge Recreation Hall. The meeting will start at 8 o'clock.

Saturday Deadline For Entries

Entries by Carbide Camera Club members in the contests must be submitted by Saturday night, October 11. They may be left with Janet Cisar, 508 Valparaiso Road; S. A. Hluchan, 108 Darwin Lane; R. A. Schroeder, 404 Valparaiso Road; and Justice Baird, 20 Lakeside Drive, Kingston, Tenn.

In addition to the Carbide Camera Club contests, an open photographic print contest for both members of the Company group and the Oak Ridge club will be held. Entries in this contest must be in the hands of either Rene Bolomey, 102 Tabor Road; or Frank Kertesz, 236 Outer Drive; by noon next Sunday, October 12.

Color slides may be entered in either two by two inches, 2 1/4 by 2 1/4 inches or 3 1/4 by four inches in size. They shall be less than two years old and on the subjects of either flowers, scenery, children or animals. Entries are limited to four per person.

Entry Rules Are Stated

The photographs may be up to 16 by 20 inches in size and mounted on a vertical mount of 16 by 20 inches. The negative shall be less than two years old and the print not entered in any previous Carbide Camera Club competition or have won prizes in any other contest. Entries must be in monochrome and are limited to one per person. Subjects are portraits, scenery, architecture, still life and table tops.

In each event, data on camera used, exposure, light, developer, paper and toner, if any, should be given. Photographs should be titled.

Attendance Record

Group absentee percentage was 2.4 per cent, remaining the same as the preceding week.

The plant average for the week ending September 28 was 2.9 per cent, remaining the same as the preceding week.

Canasta, Bridge Planned At Carbide Wives Meeting

Bridge and canasta will be played at the regular monthly meeting of the Carbide Wives set for 7:30 o'clock next Wednesday night, October 15. The meeting will be held in the East Lounge of the Ridge Recreation Hall and all wives of Y-12 employees have been invited to attend.

The executive board member in charge of the meeting next week will be Mrs. R. A. Hamrick. Hostesses will be Mesdames W. Z. Muenzer, Clyde Odom, R. V. McCord, J. C. Barton, whose husband works in Y-12; A. V. Faloon and J. F. McDonald.

FIELD MAINTENANCE EMPLOYEES SHOWN ABOVE REMOVE AN OLD PLATFORM and shack in the western end of the plant area as a part of the Fire Prevention Week program of eliminating potential fire hazards. At left L. M. Anthony, W. B. Redmon, C. L. Haun, E. L. Mapes, V. A. Mattox and E. C. Greenlee arrive and start working. In the right picture the group is continuing the cleanup work.

Alert Y-12ers Work To Eliminate Hazards

Continued from Page 1
 objective of ascertaining if any fire hazards exist in their areas and then taking steps to eliminate them. Complete reports at the end of the week are expected to show substantial progress in doing away with conditions that might result in an unexpected fire.

Along this line, several abandoned buildings and platforms in various plant areas have or are being removed by the Maintenance Division. The same division also is engaged this week in carrying away any accumulated trash and rubbish that has been collected in and around buildings for removal as a potential fire hazard.

Fire Losses Increase

Three causes of fire run neck and neck in Y-12 through August 31 of this year. They are improper disposal of cigarettes and matches (the nation-wide terror of fire causes), welding and cutting and spontaneous ignition, listed at 15 each. Fires from electrical short circuits come next with 11 in the 88 fires listed. Losses, although comparatively low at \$4,111.45, still are higher than the \$1,774.75 loss from 76 fires in the same period last year.

For a plant the size of Y-12, this record had been exceptionally good. The mark has not been achieved through luck, but through the combined efforts of every employee in the plant.

Home Action Is Urged

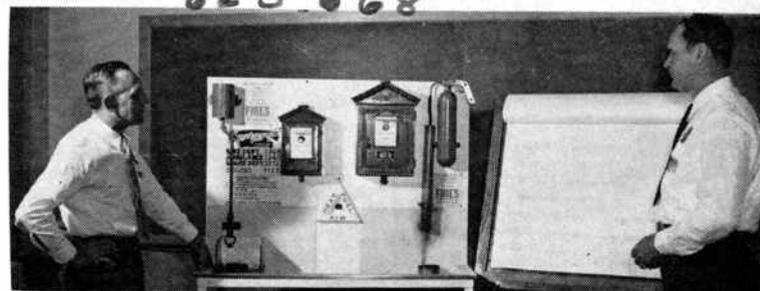

At home, Y-12ers either have done or are being urged to take steps toward fire prevention. Defective stoves and furnaces are one of the leading causes of home fires. Of course, that smoking hoodoo rates high, particularly the nightcap puff that finds a dropped cigarette setting fire to a bed or room. Non-flammable cleaning compounds cost no more than high flammable liquids such as benzene, gasoline and naphtha, and should always be used if home cleaning is desired. Not much money may be saved by cleaning out trash and rubbish in closets, attics and basements, but top-ranking causes of fire can be eliminated and homes will be neater and more comfortable.

Congratulations to—
 R. E. Webb, who became father of a girl born September 26.
 William A. Stephan, who became father of a boy born September 29.
 Floyd Ray, who became father of a girl born October 2.

Y-12ERS IN THE PAINT SHOP OF THE FIELD MAINTENANCE Department not only help out in Fire Prevention Week by painting the many signs displayed in the plant but also hear about it in a safety meeting, shown above. At left rear is H. H. Miller, shop foreman; left front is E. F. Dykes, assistant foreman; while at right front is H. R. Dyer, chairman of the departmental safety meeting. Others in the picture are R. T. Huffman, J. T. Williams, R. E. Wilkerson, E. Lawson, D. D. Spangler, J. D. Goodpasture, A. I. King, E. W. Woodward, Jack Spears, R. L. Chrisman, C. S. Munsey, E. W. Greenlee, P. G. Grubb, H. F. Plyman, C. L. Westmoreland, W. L. Davis, C. A. McKinney, J. F. Hannah, W. Smith, T. L. Patrick, M. T. Johnston and L. G. Freeman.

A NEW PORTABLE DISPLAY BOARD FOR INSTRUCTION in fire prevention is being looked over by C. W. McCollum, left, supervisor of the Y-12 Training Department; and Fire Chief W. O. Elam. The board will be introduced to Y-12ers this week in supervisory training sessions on fire protection.

Rides Wanted And Offered

One Rider Wanted—From Chapman Highway section of Knoxville, straight day. Fred McPherson, plant telephone 7522, home telephone 3-4938, Knoxville.

Four Riders Wanted—From Maryville, via Knoxville and Inskip, straight day. W. W. Pugh, plant telephone 7436, home telephone 3580-J-3, Maryville.

Ride Wanted—From Fountain City near Stevens Drug Store, straight day. Mary Lou Wilson, plant telephone 7216.

Ride Wanted Or Will Participate In Car Pool—From West Vanderbilt Drive, Oak Ridge, straight day. C. E. Curtis, plant telephone 7644, home telephone 5-7643, Oak Ridge.

Ride Or Riders Wanted—From Burlington section, Knoxville, Chilhowee Hills, straight day. Alice Elder, plant telephone 7171, home telephone 2-2006, Knoxville.

Want To Participate In Car Pool—From 202 Outer Drive (new section), straight day. Tom Pappas, plant telephone 7064, home telephone 5-8059.

Car Pool Participant Wanted—

From North Knoxville, straight day. R. D. Satterfield, plant telephone 7946, home telephone 3-5243, Knoxville.

Riders Wanted Or Will Participate In Car Pool—From Lake City, on Group No. 1. W. R. Jackson, Plant telephone 7272, home telephone 4501, Lake City.

ORINS Scientist To Speak At Physics Seminar Meet

Dr. Jasper Richardson, of the Oak Ridge Institute of Nuclear Studies, will speak at the weekly meeting of the Oak Ridge Physics Seminar at 3:15 o'clock Friday afternoon. The meeting will be held in the new auditorium of the Oak Ridge National Laboratory Research building. The topic will be "A Cobalt 60 Teletherapy Unit."

A. C. L. RE-ROUTES TRACKS
 The Interstate Commerce Commission has authorized the Atlantic Coast Line Railroad to re-route a portion of its main line tracks near the Savannah River plant of the Atomic Energy Commission, according to the Columbia, S. C., State.
