Project Title: NDLGS System Installation Project (4507)

Program or Program Office: Y-12 Site Office

Location: Oak Ridge Tennessee

Project Description:

This project would install a non-destructive laser gas sampling (NDLGS) capability at Y-12. The NDLGS system would consist of a laser workstation capable of drilling, sampling, and resealing canned subassemblies and gas sampling carts. LANL would design, procure, and fabricate the workstation and provide all related equipment including the laser, vacuum manifold, and fixtures. Y-12 would design and procure two new gas carts and a material handling lift, and install the NDLGS system in an area adjacent to the existing ELGS system in the production building. Readiness would be confirmed for the installed system.
