

The Molecular Group (TMG) is a full service environmental, engineering and consulting firm. The TMG team consists of highly skilled and experienced engineers, scientists, technicians, project and construction managers that provide innovative solutions to each TMG project. Our clientele consist of both the private sector as well as the local, state, and federal agencies. TMG has the systems and personnel in-house to achieve the successful completion of large multi-disciplinary projects. TMG successfully maintains this high level of performance and cost control through a Quality Assurance Program (QAP). Through a team approach, we work closely with our clients to fully understand their needs and develop a sensible solution that will ensure the success of their project.

ENVIRONMENTAL SERVICES

TMG started as an environmental company so it is no surprise that this is our strongest department. We are committed to helping our world last for many generations to come. Our team is dedicated to assisting our clients with all aspects of their projects; whether the project is remediation or sample collection and analysis. Here are some of our environmental services:

- National Environmental Policy Act (NEPA) Services
- Air Quality Services
- Water Quality Services
- Marine and Coastal Services
- Investigations & Remediation
- Underground Storage Tanks (USTs)
- Storm Water Permitting & Compliance
- Wastewater Treatment / Sewer
- Solid Waste / Landfills
- Hazardous & Universal Waste

ENGINEERING SERVICES

TMG's staff consists of Professional Engineers trained in a variety of disciplines such as; planning, assessment, compliance, implementation, investigation, remediation, and monitoring of difficult environmental challenges. Our areas of expertise include:

- Brownfields Redevelopment
- Turnkey Construction Designs
- Oil & Hazardous Substance Planning
- Geology / Civil / Hydrogeology
- Mechanical / Electrical / Plumbing
- Offshore Oil and Gas Services

RESEARCH & DEVELOPMENT

TMG operates a state of the art laboratory in The Louisiana Business and Technology Park at Louisiana State University's South Campus. Our scientists are eager to help our clients who are focused on maintaining a competitive edge in the marketplace through innovation. With our collaboration with academia, TMG scientists and technicians have access to a wide range of cutting edge analytical equipment and facilities to meet virtually any need. TMG is interested in developing technologies such as: greenhouse gas sequestration; renewable energy; biofuels; sustainable fisheries; and pharmaceuticals and natural medical products.

INFORMATION TECHNOLOGY

TMG's Information Technology Department ensures that we protect our client's information as we help them perform their respective projects. TMG understands that staying at the forefront of IT innovation is critical to surviving in an aggressively marketplace. With that in mind we offer network design, set-up, installation and programming in ASP, NET, PHP, XML, CGI, JAVA, MYSQL, SQL, PERL, HTML, VBSCRIPT, VISUAL BASIC, VB6 and many other languages such FORTRAN, C, COBOL, RPG II & III, Basic, Assembly and Access basic as a service to our clients.

CONSTRUCTION MANAGEMENT

TMG construction managers have over 40 years of combined experience in the field of construction and along with our engineers there will be no project that TMG cannot handle. Our team performs turnkey construction-phase activities including coordinating and responding to requests for information; managing change order and submittal reviews; and scheduling site visits and review meetings.

GOING FORWARD

TMG maintains sufficient staff with the proper technical and managerial experience to provide the necessary environmental planning for a variety of private, non-profit, and governmental projects. Through our vast working relationship with universities and small business, TMG's staff has been carefully developed over the years to ensure that we have the right staff and the pertinent disciplines to successfully complete multiple projects simultaneously. TMG also recognizes the need to augment our capabilities with other subcontractors to provide additional depth of staff or specialized expertise. The TMG staff takes pride in the quality of our products, the timeliness of our deliverables, the performance of our staff, and the completeness of our work. Furthermore, we take cost control seriously as it benefits both our clients and the members of our team.
