

## Y-12ERS MARK SIXTH CARBIDE SAFETY PERIOD

### Maintenance Reports Four More Boosted

Four more Maintenance Division employees are listed in this week's group of sketches and pictures on promotions earned since July 1, 1951. This is the sixth of the series on promotions published in The Bulletin and the series will continue until all of them are listed. The time of publication, order of mention and place of appearance in The Bulletin has no significance as to the importance or merit of the promotion.

**E. F. Dykes**—A Y-12 employee since November 24, 1944, Dykes was a painter in the Field Maintenance Department until his promotion to assistant maintenance foreman on July 1, 1951. He and his wife, Mrs. Georgia Dykes, who were married in 1933, live on Lawson Ave., Knoxville. They have two children, Richard and Carole.

**James L. Gilliam**—Coming to work first in Y-12 back in January 2, 1944, Gilliam left on March 17, 1947, but returned to employment here on November 26, 1950. He was promoted on June 1, 1952, from machinist to assistant foreman in the Maintenance Shops Department. He was married in 1942, and he and his wife, Mrs. Lorena Gilliam, live on Route 2, Niota, Tenn. They have five children, Eugene, Wylda Jo, James Louie, Robert Steven and Richard Paul.

**C. O. Oody**—Oody was employed in Y-12 in August, 1950, in the Buildings and Grounds Department and on September 1, 1951, he was promoted from rigger to assistant foreman. He lives at 665 Alpaca Way, Oak Ridge, and was married on July 21, 1933. He and his wife, Mrs. Mary Oody, have four children, Carleen, Jim, Willie Ruth and Betty Jo.

**U. G. Riddle**—An old timer in Y-12, Riddle was employed in the plant on November 1, 1943. He was promoted from pipefitter group leader to assistant maintenance foreman on July 1, 1951. He was married on May 13, 1943, and he and his wife, Mrs. Eleanor Riddle, have one son, George Earnest Riddle.

### UCC Will Provide Services To AEC For New Plant

#### Corporation Will Not Operate Ohio Project But Aid In Training

Union Carbide and Carbon Corporation, of which Carbide and Carbon Chemicals Company is a division, will aid in training and provide important key services to aid the Atomic Energy Commission place its proposed new gaseous diffusion plant near Portsmouth, Ohio, into operation, it was announced in Oak Ridge last week by Clark E. Center, General Manager of Carbide and Carbon Chemicals Company units in Oak Ridge and Paducah, Ky. General Manager Center made the announcement in pointing out that Union Carbide would not operate the new Ohio plant.

#### Varied Services Offered

"To answer some of the questions that we have been asked, Union Carbide will not be the operator of the new diffusion plant to be built near Portsmouth, Ohio," the general manager said. "However, Union Carbide, at the request of the Atomic Energy Commission, will furnish key services to get the project underway. These services include process design, engineering and assistance to the commission in procurement of special equipment, and provision of operating data for the prospective operating contractors, and technical consultation during construction and start-up of the plant.

"Carbide has done the process development and engineering design for each of the gaseous diffusion plant additions since 1946 and for this reason is experienced in this important phase of the work."

The gaseous diffusion method is the major process being used to separate Uranium 235, key material for all nuclear energy. The process was first used at the K-25 plant in Oak Ridge.

#### Assistance Offered Contractor

Union Carbide also has offered its services to the AEC and the contractor to be chosen for construction of the plant in the training of personnel needed for the permanent operating forces at the Ohio installation. This probably will mean establishing a new

MEMBERS OF THE CARBIDE CAMERA CLUB AND MEMBERS of their families had a big time on the club's annual outing at Cove Lake August 24. In the rear, from left, are Mrs. Rene Balomey, Bruce Mull, K-25; James Perciful, ORNL; Janet Cisar, Pat Sarvella and Melvin LaVerne, all of Y-12. In front are Mike Mull, Mrs. Bruce Mull, Don Mull, Steve Balomey, Leonard Balomey, Mrs. James Perciful, Jimmy Perciful, Mrs. Melvin LaVerne and son David, and Mrs. Martha LaVerne with her grandson twins, Andrew and Allan. Also present on the outing was Herman Dickerson, of Y-12, and his daughter, Cherry, and Rene Bolomey, of Y-12, who took the picture.

### TVA Photographer To Address Camera Club Meeting Next Tuesday, Slide Contest Set

John Havlicek, photographer for the Tennessee Valley Authority at Fontana, N. C., will speak on "Photographs For Publicity" at the monthly meeting of the Carbide Camera Club at 7:30 o'clock next Tuesday night, September 9. The meeting will be held in the club rooms, Y-12 East Portal Building.

### Testing Society Names Five Y-12ers To Group Offices

Y-12ers predominated in the list of officers elected by the Non-Destructive Testing Society of Oak Ridge at its recent meeting.

V. C. Jackson was elected president, R. F. Schabot vice president and J. W. White treasurer. All are Y-12ers. Robert Oliver, of Oak Ridge National Laboratory, was elected vice president. Members of the board of directors named were H. D. Whitehead and R. W. McClung, both of Y-12; and W. W. Latham, of K-25.

### SAFETY PROGRAM LAUNCHED

Pennsylvania has begun development of a safety and accident prevention program to protect workers using radioactive material in industrial plants, according to the Philadelphia Inquirer.

Havlicek's pictures of TVA dams and power houses have appeared in many nationally circulated publications in connection with feature stories.

Another feature of the meeting will be a competition for club members in color slides on the subject of "Farm Scenes." Members wishing to enter slides are urged to place them in the hands of Janet Cisar, vice president and program chairman of the club, Bldg. 9704-1, telephone 7726; or Robert Schroeder, president, Bldg. 9201-3, telephone 7527, not later than Saturday, September 7.

The club already is making plans for its salon session, to be held Tuesday night, October 7. This is the biggest meeting of the year for the club and color slide and black and white photographic print contests are held on several different topics. An interesting program is being arranged for this meeting, which probably will be held in an Oak Ridge location because of the small size of the club rooms at Y-12.

### 2,218,145 Hours Worked Without Lost Time Injury

#### Service Bar, Individual Awards Earned; Plant Record Still Improvable

Y-12 employees have marked up their sixth Carbide safety period of 1,500,000 man-hours worked without a lost time accident, it was announced last week. This achievement places the Y-12 plant out in front among the Oak Ridge units of the Company as K-25 has five such periods to its credit and the Oak Ridge National Laboratory three.

The latest safe operating period began on January 5 and extended to April 6, during which time Y-12ers operated a total of 2,218,145 hours without a disabling accident. The 1,500,000 hour mark was reached about March 7.

#### Another Service Bar Won

This excellent record assures Y-12 of another service bar from the Company to attach to the original plaque awarded by the Company to the plant for the first 1,500,000 hours of accident free operations established back in 1948 and 1949 and the four bars representing the repeat performance of Y-12 employees in performing their work with no injuries requiring a loss of time.

It also will bring to Y-12ers individual safety awards from the Company. The Safety Department soon will order samples of merchandise suitable for the awards from which a plant-wide committee will select a number for presentation.

#### Latest Period Second Best

The newest accident-free period is the second longest established among the six set up by carefully working Y-12ers, being exceeded in length only by the first, when the plant was operated for 2,853,478 hours without a lost time accident.

However, Y-12ers are urged not to become too complacent and satisfied over the newest and the other marks established, as it is pointed out that the 1952 safety record in the plant still is not too good. Since the latest safety period was established there have been 10 lost time accidents recorded, four in April, five in July and one in August. Adding the one mishap that occurred on January 4, that makes 11 for the year.

Y-12ers are reminded that winning these honors from the Company and recognition from safety

### Superintendent Emler Congratulates Y-12 First Aiders On Work; K-25 Victors Broke Y-12 Scoring Mark; Judges Praise All Teams

A few flashbacks and reminiscences of the Carbide First Aid Contest—

Y-12 Plant Superintendent Logan B. Emler has collectively and individually praised and congratulated all members of the 13 Y-12 teams in the contest in letters to each participant. He cited the "extra special effort" required and put forth by the first aiders in training and participating in the contest and wished "luck to you if you

elect to participate next year." He also declared that recognition and credit is deserved by the Training Department for its instruction program and handling of the event.

Scores in the 1952 contest were uniformly higher than in any of the previous events—and it was not because of lenient judging but the result of better execution of problems by the record number of 41 teams entered. The judges were unanimous in this opinion—that the 1952 teams were better trained

and more efficient in their operations than those of previous years.

When the K-25 Guards D Shift team set that record score of 1,499 points out of a possible 1,500 it not only retired the Company trophy but took the previous high-scoring honors from Y-12 teams. The Y-12 Fire Department team that won the contest in 1949 posted a score of 1,498 and the same score was achieved by the Plant Women's Team of Y-12 back in 1948 when

## Many Y-12ers Attend Roy Vineyard Funeral

Many Y-12 friends of the late Millard Roy Vineyard, 47, general foreman in the Buildings and Grounds Department who died following a heart attack August 26, attended his funeral services last Friday in Knoxville. Last rites for the well-known Y-12er were held at the Rose Funeral Home chapel in Knoxville and interment was in Lynhurst Cemetery. The services were conducted by the Rev. R. A. Wood, retired Baptist minister; and the Rev. Robert Morton, pastor of the Beaumont Ave. Baptist Church, of Knoxville.

Six of the eight pall bearers at the funeral were fellow employees in Y-12. They were C. B. Hopkins, Paul Miller, W. A. Pratt, Thomas McNamara, E. J. Rodgers and Luther Walton. Boyd Thompson and Robert Browning, other close friends of the family, also were pall bearers.

Vineyard's death was entirely unexpected as he seemed to be in the best of health on leaving work on the day he died. He succumbed while riding one of his fine horses along Emory Valley Road, collapsing in the saddle and falling to the roadside. Death was attributed to a heart attack.

The Y-12er is survived by his widow, Mrs. Helen Murray Vineyard; a brother, J. L. Vineyard, Maryville; and four sisters, Mrs. Mattie Williams, Miss Sallie Vineyard, Mrs. W. N. Neubert and Mrs. George Vineyard, all of Knoxville.

Roy Vineyard, as he was universally known around Y-12, was among the best-known and most popular employees in the plant. He came to work here back on November 25, 1943. He was a native of Knox County.

The following Y-12 employees were patients at the Oak Ridge Hospital last week: Dorothy L. Brashears, Corene E. Snyder and Will Rider, Administrative Product; Odell Loyd, Maintenance Shops; Ellis T. O'Rourke, Research Services; Lila G. Hamilton, Analytical Laboratory; Joe L. Williams and J. P. Wheeler, Chemical; Paul C. Posey, Medical; Ray H. Buchanan and John B. Gray, Field Maintenance; Helen B. Whittenburg, General Maintenance Office; Mary E. Lee, ANP Division; and James N. Lee, Janitors.

William M. Dobbs, Maintenance Shops, became father of a boy on August 23.

William F. Peed, Isotope Research and Production, became the father of a girl on August 23.

Ralph Apple, Analytical Chemistry, became father of a boy on August 25.

THREE FORMER NURSES IN THE Y-12 MEDICAL Department were honorees at a stork shower given last Wednesday night at the home of Mary Ellen Miller, 331 Villanova Road. Co-hostesses were Louise Worthington and Charlene Smith and the guests of honor were Frances Haase, Fern Howe and Virginia Smith Key. Those attending the affair, pictured above are, in front row from left, Barbara Jackson, Helen McNew, Margaret Rainbolt, Velma Sumner, Esther Moody, Louise Worthington, Frances Haase, Virginia Key holding her daughter, Sarah Faye Key, Mary Ellen Miller, Fern Howe, Charlene Smith and Lillie Cobble. In rear are Esther Rosenberg, Maude Clemmer, Lucille Miller and Dr. Anne W. Robinson.

Hoby Thomas, of the Engineering Department, and his family are vacationing with home folks in Pennsylvania . . . M. B. Bridges spent last week's vacation at home in Knoxville . . . Floyd Downs has returned all rested up after his week of vacation at home in Oak Ridge . . . Harold Payne also profited from a week of vacation. . . B. D. North drove up to Dayton, Ohio, to spend the holiday week end with his folks.

Ben N. Pinegar, of Research Services, spent two weeks of vacation in and around Oak Ridge . . . N. A. Stone and John G. Harris have both returned from a week's vacation . . . The department extends sympathy to Ed Fields, whose mother-in-law died August 23 at their home in Heiskell—get-well wishes go to Ed, who is on the sick list.

Morris Perry, of Safety, spent the Labor Day week end at his home in Cleveland, Tenn.

Plant Records extends a welcome to Ed Beaven—latest addition to the roster . . . Arminta Ladd spent last week in Washington, D. C., visiting friends . . . Lennis Winchester spent the week end in Atlanta, Ga. . . Louise Barry spent a recent week of vacation in Hampton, Va. . . Bobbye Jean Jesse went down to Athens, Tenn., to spend the week end with her parents, Mr. and Mrs. George Kincaid . . . Peg Zerby went over to Cherokee, N. C., on a recent week end to see "Unto These Hills" . . . Betty Lou Fraker and her mother are visiting her sister and brother-in-law, Staff Sgt. and Mrs. D. H. Preece, in Riverside, Cal. . . Dorothy Conner spent the week end with her mother in Chattanooga.

Capt. W. R. McGill, of the Fire Department, is spending his two-week vacation at home in Oak Ridge—a speedy recovery is wished for his wife who is ill.

Ann Thomas, of Security, and her husband, John, of Engineering, are enjoying a week's vacation sunning in St. Petersburg, Fla.

The Cafeteria extends get-well wishes for Superintendent George McNamee, who is ill at home . . . Edna Campbell went trekking up to Michigan for a week of vacation . . . Wynetta Patterson and her husband, Pat, of the Guard Department, are vacationing this week just to enjoy their new home they have recently purchased in Knoxville . . . Bessie Roberts and Jessie Bowens are on this week's vacation list.

Ella Mae Koontz, of Manufacturing Offices, spent some time in Chattanooga, while vacationing last week . . . Dot Parks visited in Nashville while on a week of vacation . . . Loretta Johnson is vacationing this week at home in Clinton . . . Pearl Patty is at home

in Lake City for a week's vacation . . . O. C. Hartman is spending this week's vacation at home near Byington doing a little work around the place . . . R. J. Barron's son, Bob, a former Y-12er, was home recently—he has been stationed at Camp Gordon, Ga., and was on his way to Fort Devens, Mass. . . Hugh P. Rice, Jr., spent a peaceful week of vacation at his home in Clinton . . . Kay Steed vacationed at her home in Union City last week.

Ann McKnight, of Property, and her husband are vacationing in Chattanooga, this week . . . H. I. Esty is spending this week off at his home in Oak Ridge . . . Oliver Keene and his wife, Penny, of Medical, are motoring down to Mobile and Tuscaloosa, Ala., to visit relatives—they also plan to get down to Panama City, Fla., for a few days while on a week's vacation.

George Lockhart, of General Maintenance Offices, and his family spent a recent week of vacation visiting in North Carolina and in Virginia . . . George Mitchel and his family planned a tour of Virginia while vacationing two weeks. . . C. R. Kasperek and his family have returned from a week's visit in St. Louis, Mo. . . Joe Bearden has returned from a recent two-week training period with the National Guard Reserve at Fort Jackson, S. C. . . The department bade farewell to Sarah Culbert last Friday, as she left to take up scholastic duties at the University of Tennessee—however she plans a week-end trip to Nashville and a trip to Florida before time to report to classes . . . The department extends get-well wishes to P. G. Herndon, who is on the sick list.

Ralph Watson, of Chemical, is vacationing this week in Oak Ridge—he is general chairman of the Scottish Rite's circus committee and is working out details for the circus to be in town soon . . . Irene Posey attended a family reunion in Newport last Sunday, after which he returned to her home in Knoxville, where she is taking a week of vacation . . . We can safely say that E. M. Williams spent a lot of time out boating and fishing while on vacation last week.

Helen Claffey, of Stores, and her husband spent the holiday week end with her folks in Okolona, Miss. . . F. W. Fielder and B. E. Reneau have returned from a week's vacation.

Opal Griffin, of Personnel, her father E. I. Griffin, of Stores, and her mother are visiting Opal's sister, and the latter's other daughter, in Albany, Ga., this week . . . Frances Donahue is visiting her mother in Aiken, S. C., this week. Doris Bledsoe, of the Laundry,

## Metallurgists Plan Regional Meeting

Metallurgists and other technical personnel in Y-12 have been invited to attend a regional meeting of the American Society for Metals southeastern group chapters to be held in Oak Ridge September 18 and 19. Chapters from Oak Ridge, Atlanta, Birmingham and Chattanooga will be represented at the meeting, which will be held at the Oak Terrace.

The theme of the meeting will be "Atomic Energy and Its Unique Metallurgical Problems." Speakers will include Joseph E. Burke, director of the metallurgy division of the Knolls Atomic Power Laboratory; G. E. Evans, of the Oak Ridge National Laboratory Physics Division; and D. S. Billington, director of the physics of solids division of ORNL. E. C. Miller, of the metallurgy division of ORNL, will be toastmaster of a dinner to be held at the Oak Terrace following the technical sessions on September 18. Football movies and a talk by L. B. Johnson, line coach of the University of Tennessee, will follow the dinner.

An unclassified tour of ORNL and the American Museum of Atomic Energy will be held on September 19.

is enjoying a week of vacation in Panama City, and Pensacola, Fla. . . C. A. McAlister and his wife motored over to Cherokee, N. C., on a recent week end to see "Unto These Hills."

Uranium Control and Computing reports considerable traveling by its folks . . . Bill Belvin and family Labor Dayed down to Chattanooga . . . Carolyn Wesson and her husband, also a Y-12er, went to Mount Olive, Miss. . . Mabel Tyer, Superintendents Department, is vacationing up in Paducah, Ky., visiting a number of former Y-12ers now basking in the beams of Kaintuck sunshine . . . Flora Coefield, Uranium Control and Computing, is vacationing in Birmingham, Ala. . . John Thompson is remaining at his Oak Ridge home during vacation.

James R. Aytes, of Maintenance Shops, is vacationing in Pensacola, Fla., his wife and mother-in-law preceded him there by two weeks and will return to Oak Ridge with him at the end of the week.

T. S. Curtis, of Receiving and Shipping, and his wife are spending a two-week vacation in St. Louis, Mo. . . Ray Stewart is vacationing for two weeks at home in Lenoir City.

Doris Brogan, of the Assay Laboratory, attended the wedding of her brother, Clifford Brogan, on August 22, in Middlesboro, Ky. . . Margaret Dailey spent a recent week of vacation in Michigan, where she was an attendant in her sister's wedding on August 23.

Ann McWilliams, of General Administrative, is enjoying a week of vacation at her home in Maryville.

Oops—Some reporter, proof reader or maybe just the editor of The Bulletin did Capt. Pat Dabbs, of the Guard Department, wrong last week—we didn't give him credit for near as much married life as he should have. It was reported he married in 1944—'t isn't so, he was wed 'way back in 1922. Got to keep on the good side of the law, you know, they come in handy lots of times . . . S. T. Vickery, M. L. Sullivan, R. G. Carver, R. C. Ridge and J. H. Shoemaker have been on the vacation list . . . Lt. E. M. Hunnicutt and his family visited relatives in South Carolina while on a two-week vacation.

Hugh Sadler, of Isotope Research and Production, and his family spent a recent week's vacation in St. Louis, Mo. . . Bill Peed is the proud father of a baby girl, born recently in the Oak Ridge Hospital and weighing six pounds, 13 ounces. The department extends hearty congratulations to him . . . Harold Walker and family are vacationing with the home

Mr. and Mrs. J. W. Marshall

### MARSHALL-WILLIAMS

Miss Imogene Williams, of the Y-12 Material Control Section of the Stores Department, was married at 8 o'clock Friday night, August 8, to John W. Marshall, of Knoxville.

The ceremony was performed at the New Salem Methodist Church with the Rev. Mrs. C. G. Kirby officiating.

The bride is the daughter of Mrs. T. J. Williams and the late Mr. Williams, of Route No. 10, Knoxville. The groom is the son of Mrs. J. A. Marshall and the late Mr. Marshall, also of Route No. 10, Knoxville.

For her wedding, the bride wore a white linen suit and a white orchid corsage. During the ceremony appropriate music was presented by Miss Mary Hawkins, vocalist; and Miss Patsy Hale, pianist. After the wedding a reception was held at the church.

folks in Pennsylvania this week.

Electrical Maintenance extends get-well wishes to the fellows on the sick list which includes B. W. Beckham, J. R. Ownby and W. D. Brock . . . E. E. Guy got the surprise of his life when a four and one-half pound large mouth bass struck his hook—this happened on August 23, on a fishing trip to Watts Bar . . . H. V. Craft has returned from a two-week vacation tour of the Carolinas . . . B. I. Scott spent part of his vacation time in Georgia . . . A. L. Franklin and G. E. Needham were on last week's vacation list . . . R. W. Coker, C. C. Sharp, Virgil Lovett, and R. B. Houts were recent vacationers from the department . . . W. H. Evans has reported back after two weeks of vacation.

The folks in Engineering are glad to have Lillian Howard back after doing some work with ANP in another building—Lil' spent the Labor Day week end in Birmingham, Ala. . . Gene Palmer and family visited his folks in Andrew, N. C., over the week end.

Just to show their regard for Dr. A. R. Nichols, the ANP Chemistry Group gave him a farewell luncheon one day last week—Dr. Nichols left the Company last Friday to go back to California where he will teach in one of the state colleges. He and the family are taking a northern route in order to see some of the country on the trip.

Jan Richbourg, of Medical, took a trip to South Carolina, over the week end . . . The department extends get-well wishes to Paul Posey, who is a patient in the Oak Ridge Hospital.

"Rastus, does that mule ever kick you?"

"He ain't yit, but sev'l times he's kicked where I just bin at."

# Y-12 SPORTS NEWS

## Engineers Win Carbon League Championship; Plant Tourney Slated To Start This Week

### Sportsmen's Association Sets Interesting Program For Annual Field Day Sunday

There will no doubt be a lot of Y-12ers on hand for the Annual Field Day to be staged by the Oak Ridge Sportsmen's Association on next Sunday, September 7, at the association grounds on the Turnpike west of the city. The festivities are slated to begin at noon and an interesting program featuring various types of firearms will be presented during the afternoon.

One of the features will be high-power center-fire rifle match to be fired over the 300-yard range under international course rules. Then will come a demonstration of cap and ball pistol and rifle fire by R. J. Dunbar, nationally-known rifle and pistol expert now employed by the Atomic Energy Commission here. Another demonstration of fire power with rifles and pistols will be given by A. A. Abbatiello and James Brewer to show the destructive affects of bullets on cans and ice blocks. A pattern-shooting exhibition with rifles will be given by Roy Sullivan, of Crossville, Tenn., and Col. L. E. Roninger and Melvin Brown, of Oak Ridge. An address by Lou Williams, Chattanooga, will close the formal program. Williams is past president of the Tennessee Conservation League president of the Keep Tennessee Green Association and also head of the Kentucky-Tennessee Safety Congress.

A drawing for prizes will be held at 4:30 o'clock, to be followed by a free watermelon feast. During the entire afternoon open house will be observed on the rifle and pistol ranges of the association and refreshments will be available on the grounds.

### Nate Smith, Towns Clash To Determine City Tennis Champ

With matches tied at two each, tennis aces of Y-12 and Oak Ridge National Laboratory will square off some time this week to determine the city championship and break the deadlock in the title engagement between the two teams. The playoff was needed when the Y-12 racqueteers won the first half of the season and the Lab loppers took the second.

The deciding clash will pit Nate Smith, of Y-12, former city champion, against Roy Towns. Towns was out of the city last week and unable to play in the title tilts.

In engagements last week Y-12 won both singles scraps while the Labbers won the doubles bouts. Jack Ranshoff, present city champion, defeated Mike Silverman, 6-2, 7-5; and Don Smith smacked Clyde Hylton 7-5, 6-1. The ORNL team of Charles Cook and Bob Zeitlan beat Fred Hurst and Larry Koontz 6-3, 6-4; and the duo of George Creek and Frank Blackshear outlasted George Wells and Phil Baker 6-4, 3-6, 6-2.

### Hurst Accepting Tourney Entries

All Y-12ers interested in entering the annual city-wide Oak Ridge tennis tournament are urged to communicate at once with Fred Hurst, telephone 7239, Bldg. 9233-3. The entries must be in by Thursday of this week with play probably starting Saturday on the Townsite courts.

led the club's activities for several years. The meeting will be first since the summer vacation of the group and the director has announced the club is planning an active and interesting program for the coming season.

**Remember—Only you can PREVENT FOREST FIRES!**

### Carbide League Race Still Is Undecided

The Engineers softballers of the Carbon League clinched the season's crown in that plant circuit last week by edging out the Rusty Nine by 5 to 3 in the playoff game for the second half of the season crown. The Engineers had previously won the first half of the season title.

**Seven Errors Costly To Losers**  
After three scoreless rounds the Engineers bagged four runs in the fourth and another in the fifth to ice the game as they withstood a determined Rusty Nine rally in the sixth. Seven bobbles by the losing team didn't help their cause a bit as the victors played errorless ball and each team got only four hits. Wetchel whiffed nine and walked four for the winners.

The Carbide race still was undecided last Friday. Uranium Control Junior Varsity advanced one step nearer the second half title by beating the Peons by 11 to 2 in a postponed game but still have two more tilts set with the 49ers and Bldg. 9212. Bldg. 9212 and the 49ers also have a postponed game on the books to determine the last half of the season race.

**Tournament Underway**  
Meanwhile, weather permitting, the annual Y-12 plant softball double-elimination tournament was scheduled to be underway this week. According to the slate, games scheduled for tonight are Bums and Peons at 5:45 p. m., Sparks and Engineers at 7:15, and Short Circuits and 49ers at 8:45 p. m.

Line scores of games last week follow:

Team	R	H	E
Rusty Nine	000	102	0—3 4 7
Engineers	000	410	x—5 4 7
Burnett and True. Wetchel and Morris.			

Team	R	H	E
USJV	012	051	2—11 10 2
Peons	200	000	0—2 2 3
DeMarcus and Hopkins. Ross and Galimore.			

### Important Hunting Dates Announced For Y-12 Nimrods

Y-12 nimrods are reminded of the coming important dates in the hunting season in Tennessee.

The squirrel season will open on September 15, with a limit of six in one day.

Entries for the state-managed deer hunts must be in the office of the State Fish and Game Commission, 166 Eighth Ave., North, Nashville, Tenn., not later than September 17, for the hunts to be staged on the Norris Central Peninsula in November.

A three-day open season on deer in parts of Anderson, Campbell and Union Counties will be observed November 13, 14 and 15. Hunters are limited to bow and arrow or shotguns with single ball load.

The first half of the dove season is from September 15-19 and the second is October 16-30 from noon to sunset with the bag limit being eight birds.

### Pistoleers Win Forfeit In Match

The Y-12 pistol team won a forfeit from the Knoxville Volunteer Rifle and Pistol Club last week and then proceeded to post the second best score of the season by the plant team in an exhibition informal shoot. The Y-12ers posted a 1,451.966 handicap score for the first five men.

Individual scores were well bunched. J. D. Kingston led the Y-12 team with 277—291.577; and was followed by T. J. Bush 262—291.553; V. O. Haynes 218—289.889; W. M. Stephan 245—289.490; and A. B. Longyear 235—289.457.

### Plant Bowlers Set To Open

#### W And D Leagues Start Activities On Tuesday

Timber toppling by the five Y-12 leagues of plant bowlers is scheduled to get underway next week on Oak Ridge alleys. Four men's circuits and one feminine loop will roll during the coming season.

The W League of women keglers and the D League of men bowlers will get underway at 6 o'clock next Tuesday night, September 9. The women will roll on the Central alleys and the men on the Jefferson hardwood.

#### W League Completes Roster

The W League completed its roster of eight teams last week, but not all of the groups had selected names for the season. Betty Whitehorn is president of the league with Mary Cusman vice president and Doris Moore, secretary treasurer.

The D League also has eight teams, the Vectors, Old Men, Toppers, Grocers, Peons, Isotopes, Activators and Split Pins. R. P. Wallace is president of this league with J. L. Noey vice president and C. L. Coleman secretary-treasurer.

The opening session of the C League is scheduled for 6 o'clock next Wednesday night, September 10. With some new teams entering the circuit, this league decided not to elect permanent officers until after a couple of weeks of activities. This circuit also will have eight teams.

#### B Loop Has 12 Teams

With 12 teams competing, the B League will inaugurate its season on Thursday night, September 11, at the Oak Terrace. Jim White is president of this league and Nelson Tibbatts, secretary-treasurer. Teams in the circuit are the Has Beens (old Comets), Swingers (old One-91), Cubs, Wolves, Bldg. 9211, Tigers, Bumpers, Wasps, All Stars, Rippers, Bums and Rebels.

Organizational details had not been completed by the E League, another eight-team men's league, last week but a meeting was expected to be held by teams in this loop early this week to prepare for the opening of the season. The league probably will begin bowling at 8:30 o'clock Tuesday night, September 16, at the Jefferson alleys.

### Savannah Area Railroads Don't Stop On Project

Two railroads now crossing the area of the Savannah River project of the Atomic Energy Commission have rearranged freight and passenger facilities so that the trains traverse the area without stopping. Although some track relocation was necessary, railroad and AEC officials agree that main lines will continue to pass through the edge of the reservation, but under certain restrictions.

**THE TOP PICTURE SHOWS winners of the recent Y-12 golf tournament and their trophies. In the front row, from left, are George Peterson, third flight; Jake Meece, first flight and medalist; Palo O'Neal, championship flight; Elmer Olson, second flight; John Hill, fourth flight. In rear are Archie Hooker, sixth flight; Elmore Koons, fifth flight; John Holiday, seventh flight. In the lower picture Y-12 Recreation Supervisor Arnold Tiller congratulates O'Neal on his victory.**

### Squads Are Picked For Y-12 Varsity Bowling Teams

Squads have been selected to represent Y-12 in both the men's and women's Oak Ridge City League competition which gets underway next week at the Grove alleys.

The masculine wearers of the red and white will begin their alley activities at 8:30 o'clock Monday night, September 8. Keglers who were picked for their averages of last season and who will form the starting squad for Y-12 are Jack Spears, captain; Ernie Cobble, Len Hart, Roy Roberts, Frank Gragg, Joe Pryson and G. R. Galford.

The women's squad of six is composed of Betty Whitehorn, Ruby O'Kain, Juanita Kirwan, Mavis Koons, Mary Ballard and Verna Peckman. They will see their first action at 8:30 o'clock Thursday night, September 11.

The Y-12 squads finished well up in both races last season, the men taking second place and barely being nosed out by the championship Friedman Jewelry Co. team. The Y-12 lassies ended up in fourth place in their circuit.

### Folk Dance Club Invites Y-12ers To Session Friday

All Y-12ers interested in folk dancing have been cordially invited to attend the opening of the fall session of the Folk Dance Club of Oak Ridge at 8:30 o'clock Friday night of this week, September 5. The session will be held in the East Lounge of the Ridge Recreation Hall under direction of Matthew Wisnowski, of the Y-12 Engineering Department, who has

## Y-12ers Mark Sixth Carbide Safety Period

Continued from Page 1  
 organizations throughout the country for carefulness in operations is, of course, commendable; but the real satisfaction and benefits to the employee and the plant come from endeavoring to prevent all accidents by eliminating potential hazards in the plant. The individual benefits from continued good health free from injuries and the Company benefits from not having the loss of manpower incurred by employees being absent as a result of injuries.

The delay in announcing the latest safety period was because of the undetermined status of two recorded injury cases several weeks ago that have since been cleared up.

### K-25 Has Longest Period

The K-25 plant still has the longest safety period established by Carbide plants in Oak Ridge by exceeding the 3,000,000 man-hour of accident-free operations earlier this summer. The K-25 period began February 29 and ended June 9, during which time 3,109,503 hours of operations without a disabling mishap were worked. This lengthy period was counted as two of the regular 1,500,000 hour periods. The previous accident-free periods established by Y-12ers follow:

- First—August 24, 1948, to April 25, 1949, 2,853,478 hours, 1,500,000 hours reached December 21, 1948.
- Second—June 1, 1949 to January 17, 1950, 1,890,027 hours, 1,500,000 hours reached December 6, 1949.
- Third—January 19, 1950, to July 12, 1950, 1,645,228 hours, 1,500,000 hours reached June 28, 1950.
- Fourth—September 22, 1950, to January 30, 1951, 1,773,906 hours, 1,500,000 hours reached January 9, 1951.
- Fifth—April 20, 1951, to July 31, 1951, 2,198,884 hours, 1,500,000 hours reached June 29, 1951.

## Y-12ers Extended Invitation To Try Out For Playhouse

Aspiring thespians in Y-12 have been reminded by Charles Blake, Materials Chemistry Division and production manager of the Oak Ridge Community Playhouse, that tryouts for the group's next play, "Hay Fever," will close on Thursday night, September 4. There are several roles to be filled and Y-12 personnel interested in amateur theatricals are urged to report at the Playhouse Workshop at Robertsville Road and Seneca Circle from 8 to 10 p. m. before the tryouts are concluded.

Playhouse Director Paul Ebert has urged anyone interested to attend the tryouts. Those unable to be present may obtain private readings by calling the director at Oak Ridge telephones 5-1224 or 5-6193.

"Hay Fever," a Noel Coward production, will be presented on October 16, 17 and 18 at the Jefferson Junior High School.

"That's a nice looking family you have, Mandy. What's their names?"

"Eeeney, Meeeney, Miney and Rastus."

"Why the 'Rastus'?"

"'Cause we didn't want no Mo."

## Rides Wanted And Offered

**Two Riders Wanted**—From North Knoxville, straight day. R. D. Satterfield, plant telephone 7946, home telephone 3-5243, Knoxville.

**Ride Wanted**—From Oliver Springs Road, Group No. 2. Mrs. L. P. Fincher, home telephone call R. C. Fox residence, Oliver Springs.

**Want To Participate in Car Pool**—From Seminole Road, Fountain City, straight day. Arch Wakefield, plant telephone 7058.

**Want Another Driver in Car Pool**—From Chapman Highway section of Knoxville, straight day. H. F. Brown, plant telephone 7385, home telephone 5-8300.

**Riders Wanted**—From vicinity of Robertsville and Hillside Roads, straight day. C. J. Beckett, plant telephone 7615, home telephone 5-6054, Oak Ridge.

**Car Pool Participant Wanted**—From Oak Ridge Townsite via Lafayette Road, straight day. B. D. North, plant telephone 7508.

**Ride Wanted**—From Fountain City, straight day. O. M. Freels, plant telephone 7549, home telephone 6-2058, Knoxville.

**Ride Wanted Or Will Participate in Car Pool**—From Norris, Group No. 2. Jim Parham, plant telephone 7244, home telephone 2554, Norris.

## UCC Will Assist AEC On Portsmouth Plant

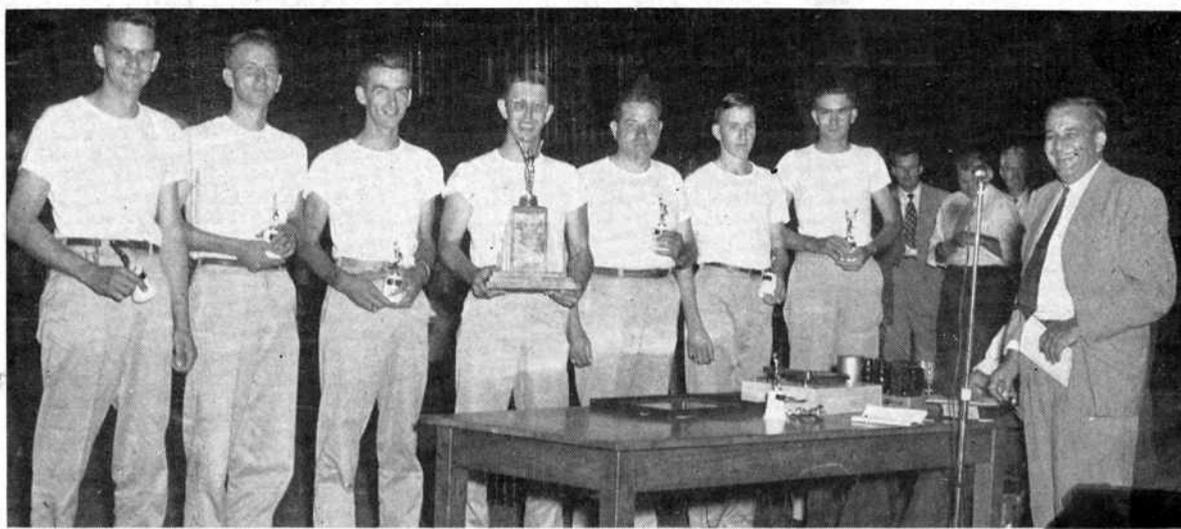

Continued from Page 1  
 training program, similar to the original school at Oak Ridge where more than 12,000 persons were trained during the war years, and the school at Paducah where personnel is being trained in the unique operation. More than 4,000 trainees are expected to be given instruction at the Portsmouth plant in a program lasting through years.

The decision that UCC would not operate the Portsmouth plant arises from the desire of the AEC to get more industrial companies to participate in its atomic energy program. The AEC believes that the national welfare requires more than one company capable of operating the gaseous diffusion method. The agreement of UCC with this principle and its cooperation in this new AEC venture is indicative of the constructive working arrangement that exists between AEC and the Corporation.

THE CHAMPIONSHIP TEAM FROM THE GUARDS D SHIFT AT K-25 THAT WON THE Carbide First Aid Contest August 23 and retired the Company trophy is shown above. From left are M. S. Stinnett, H. L. Golden, H. W. Knott, C. T. Rankin, captain; C. H. Chandler, P. King and G. R. Johnson. At right is Carbide General Manager Clark E. Center, who had presented the trophy to the team.

## Emlet Congratulates First Aiders Of Y-12

Continued from Page 1  
 the Y-12 lassies upset the dope bucket and outscored all of the masculine teams in the event.

Tabulators of the 1952 scores must have worn out a couple of computing machines and acquired several headaches in figuring out the standings because of the number of ties and the close scoring all down the line. The first three teams in the overall scoring were out by themselves with the victorious K-25 group at 1,499, the second place Oak Ridge National Laboratory Fire Department C Shift at 1,497 and the third-place Y-12 Fire Department team at 1,494. Then the ties started at scores of 1,492, 1,490, 1,488, 1,487, 1,486, 1,485, 1,484 and 1,480, three K-25 teams being deadlocked at the latter score.

The order of finish of Y-12 teams and points scored was listed as Fire Department 1,494, Guards and Uranium Processing B Team tied for second at 1,492, Manufacturing Office and Analytical Laboratory tied for third at 1,486, Plant and Research Engineering 1,485, Machine Shop 1,484, Analytical Chemistry Division 1,481, Field Maintenance 1,476, Research Services 1,473, Uranium Processing Team A 1,468, Buildings and

## Attendance Record

MAJOR LEAGUE

2096	4.8	15	10	10
2143	5.4	16	9	9
2144	5.5	17	12	12

Group absentee percentage was 3.0 per cent, .2 per cent lower than the preceding week.

The plant average for the week ending August 24 was 2.9 per cent, .3 per cent higher than the preceding week.

THE BUREAU OF MINES HAD ITS BIGGEST REPRESENTATION of top officials in contest history on hand August 23. Five of them are shown above, four of whom were honorary judges. From left are James Westfield, Washington, D. C., M. C. McCall, Birmingham, Ala., J. J. Forbes, director of the bureau, Washington; Dr. Hewitt Wilson, director Region VII of the bureau, Norris, Tenn., and C. H. Dodge, director of the accident-prevention and health division of the bureau at Jellico, Tenn., who was chief judge of the event.

Grounds 1,463 and Product Processing 1,463.

One more glance at the scoring tables showed that Y-12 and K-25 teams ran nip and tuck throughout the contest. In the 21 teams scoring 1,480 points or better Y-12 and K-25 each had eight cited, Paducah three and ORNL two. That healthy competition cannot help but give the Carbide program a boost, both from the closeness of the scoring and the morale created by the training and the satisfaction of every team member in learning the valuable principles of first aid.

The three problems prepared by C. H. Dodge, of the United States Bureau of Mines and chief judge of the contest presented the teams with tough assignments. In the first the first aiders were required to treat a man who had fallen from a scaffold and suffered a compound fracture of the left forearm with blood spurting from the wound, a simple fracture of the right collarbone, a bleeding wound across the top of the head with blood oozing from ears and mouth and a compound fracture of the left foot which also was bleeding. The second problem also involved a fall in which the injured man is conscious but has no feeling in his legs and cannot move them. He can move and has feeling in his arms and neck. His left eye is injured and he has a wound on his left elbow and is suffering from shock. This was a tricky situation as it involved a broken back. The third problem concerned electrical shock in which the victim was found on his back and apparently not breathing and with burns on right leg. Artificial respiration was the key in treating this patient.

Of course, all of the victorious teams were proud of their trophies and cash awards—but all of the nearly 300 Carbide employees participating in the contest had the satisfaction of knowing that the training they had received prior to the event is invaluable in teach-

DR. HEWITT WILSON, OF the Bureau of Mines, left, has just presented the Joseph A. Holmes Safety Association Award to A. P. Huber, K-25 Plant Superintendent, at the Carbide First Aid Contest. The award is for K-25 employees who completed 74,597,916 man-hours of work without a fatal accident. Y-12 had previously won the Holmes award.

ing them how to care for injured fellow employees or members of their own families in times of emergencies—and making them more safety conscious as they realize the importance of their work in probably saving lives or at least relieving pain and preventing further injury to injured persons treated.

## University Of Texas Man To Address Seminar Meet

The Oak Ridge Physics Seminar speaker for the meeting on Friday afternoon, September 5, will be Dr. D. S. Hughes, of the University of Texas and Oak Ridge National Laboratory. The meeting will be held at 3:15 p. m. in the auditorium of Bldg. 4500, ORNL, the near research building. Dr. Hughes' topic will be "Gamma-Ray Absorption Coefficients."
