My signature on the corresponding CFN-1251, UPF Construction Attendance Sheet, indicates that I have read the JHA and have received answers to any questions I had relative to the JHA. My signature further indicates my willingness to comply with the provisions and requirements of the JHA.

JHA NO.: JHA-00716		REV: 0		ISSUE DATE: 11/22/2023	
JHA TITLE: Electrical Safety, LOTO, and Equipment and Components Installation		WORK PACKAGE NUMBER: N/A		SPECIFIC LOCATION: N/A	
Activity	Sub-Activity	Hazard	Control		
Lockout/Tagout (Life Critical Activity)	General Requirements	Release of Hazardous Energy	· Never commence work until all energy sources have been identified and isolated in accordance with procedures		
		Defeating a Safety Device	· Never remove and/or tamper with any tag and/or lock installed for the safety of personnel.		
			Lock and tag machinery, equipment, components, and/or systems that may contain any type of stored energy before work begins		
			· Eliminate all residual or stored energy before starting any work activities		
			· The LO/TO program prevents the accidental release of hazardous energy such as electricity, compressed gases, liquids, and steam. The LO/TO program includes requirements for tagging, locking, blanking, capping, or blocking of moving mechanical parts, and for isolating electrical systems to prevent their being energized accidentally or without authorization		
			· You must be trained on work-specific LO/TO requirements to be authorized to lock or tag out equipment and machinery		
			· Never remove and/or tamper with any tag and/or lock installed for the safety of personnel		
			· Prior to work, lock and tag machinery, systems, equipment, components, and/or systems that may contain any type of stored energy		
			· Identify and eliminate all residual/stored energy prior to any work activities		
			· Sign the authorized lockout/tagout EIP permit, as required in accordance with procedures, prior to work activities		
	· Do not perform work on any machinery, system, or equipment covered by LO/TO procedures without authorization or approved training
