

NOTICE OF AVAILABILITY

DRAFT SUPPLEMENT ANALYSIS FOR THE SITE-WIDE ENVIRONMENTAL IMPACT STATEMENT FOR THE Y-12 NATIONAL SECURITY COMPLEX (DOE/EIS-0387-SA-02)

The U.S. Department of Energy (DOE) National Nuclear Security Administration (NNSA) announces the availability of this Draft Supplement Analysis (SA), which compares the information presented in the 2011 Y-12 Site-wide Environmental Impact Statement (SWEIS) with continued operations at the Y-12 National Security Complex (Y-12), including any changes in programs, operations, and impacts for the 2018-2023 period and other new information that was not available when the 2011 SWEIS was prepared. Based on the SA, NNSA will determine whether the existing 2011 SWEIS remains adequate, if a new SWEIS is warranted, or if the existing 2011 SWEIS should be supplemented. NNSA invites the public to review and submit comments on the Draft SA.

Copies of the document are available for public review on the NNSA NEPA reading room website at: <https://www.energy.gov/nnsa/nnsa-nepa-reading-room> and Y-12's NEPA website at: <https://www.y12.doe.gov/about/environment-safety-and-health/national-environmental-policy-act>. Comments on the Draft SA should be submitted no later than **July 5, 2018** to Mr. Jack Zanger, Attn: Y-12 SWEIS SA, P.O. Box 30030, Amarillo, TX 79120; by fax to: 806-573-7108; or by email: jack.zanger@npo.doe.gov. Comments will not be accepted over the telephone.
